PROFESSIONAL SUMMARY

Motivated BCA graduate and MERN Stack Developer with internship experience in full-stack web development. Skilled in React.js, JavaScript, Node.js, Express.js, MongoDB, PostgreSQL, Prisma ORM, REST APIs, Tailwind CSS, Docker and Git. Experienced in developing responsive user interfaces, secure backend services, database-driven applications and API integrations. Passionate about building scalable, maintainable and user-focused web applications.

TECHNICAL SKILLS

Languages & Frontend : JavaScript, HTML5, CSS3, React.js, Tailwind CSS

Backend & APIs : Node.js, Express.js, REST APIs

Databases & ORM : MongoDB, PostgreSQL, Prisma ORM

Tools & Platforms : Git, GitHub, Docker, Clerk Authentication, Cloudinary, Twilio API

EXPERIENCE

Intern, Full-Stack Web Development

Ethnotech Academy

- Developed and maintained REST APIs and responsive user interfaces as part of full-stack web development tasks.
- Collaborated using Git version control workflows in a team-based software development environment.
- Worked on full-stack web development using modern frontend and backend technologies.
- Developed responsive user interfaces using React.js, JavaScript, HTML5, CSS3 and Tailwind CSS.
- Built and integrated REST APIs using Node.js and Express.js.
- Worked with databases and backend services for data-driven web applications.
- Used Git and GitHub for version control, source code management and collaborative development workflows.
- Gained practical experience in software development, debugging, API integration and responsive application development.

PROJECTS

MediLite — Healthcare Record Management System

- Developed a full-stack healthcare record management platform using React.js, Node.js, Express.js, PostgreSQL and Prisma ORM.
- Implemented role-based authentication and authorization using Clerk for Patients, Doctors and Administrators.
- Built centralized medical record management functionality for secure digital storage and retrieval of healthcare information.
- Integrated Cloudinary for secure medical document and media storage.
- Implemented QR-based temporary profile access to provide controlled access to patient information.
- Integrated Twilio SMS API to automate medicine reminders and improve patient engagement.
- Designed responsive dashboards using Tailwind CSS for different user roles and workflows.
- Developed modular REST APIs and optimized database queries using Prisma ORM.
- Containerized the application using Docker to simplify development, testing and deployment.

Impact

- Improved medical record accessibility through centralized digital storage.
- Enhanced healthcare data security through authentication, authorization, and temporary QR-based access.
- Increased patient engagement using automated medicine reminder notifications.
- Built a scalable backend architecture with modular services and optimized database queries.

EDUCATION

Bachelor of Computer Applications (BCA)

MIT Degree College, Mysore

CGPA: 7.9

Pre-University Education (PUC)

Sarada Vilas College

Percentage: 76%

CERTIFICATION

Internship Completion Certificate – Ethnotech Academy
